

# Weddings 2009 by Realife

**Realife Photography** has been photographing weddings for over 35 years. Our coverage combines the new look of photo journalism with the traditional look of beautifully posed formal portraits. Our photographers are creative, caring and fun! We work with a full set of "backup" equipment to insure against any malfunctions or problems ruining your wedding photographs. As a member of Professional Photographers of America and Professional Photographers of Washington we keep up on the latest equipment and techniques to assure our photography style remains fresh and unique.

As you select your wedding photographer remember that after the cake is eaten, the tuxes returned, the gifts opened and put away, and the flowers gone, the photographs are one of the few things that will vividly preserve the precious memories of your wedding day. Don't leave such an important part of your wedding to an amateur or inexperienced photographer. While we realize price is important, quality work is as much so. Don't select a photographer without first meeting them and seeing their work.

We are available on a first come/first serve basis. The number of weddings we do each year is limited to ensure a fresh look of the highest quality. We would like to meet you and personally discuss your wedding needs. Please call at your earliest convenience to discuss how we might make your wedding day even more special!
