Invitations

We also offer a fine selection of wedding invitations including the popular picture invitations.

Signature Mats with Frames

Our studio offers a complete line of the new, popular wedding signature mats with frames. These frames and mats are specially cut for your 11x14 engagement photo with plenty of room on the mat for your guests to sign their names.

After the wedding, glass is placed over the mat and it is then placed in a special frame with your name and wedding date. These special frames are a welcome replacement for the traditional guest sign-in books of yesteryear.

Preview Images (Proofs) – Wedding preview images are viewed at the studio. The number of photographs taken at weddings range from 100-500. The number varies by time and conditions. These images are numbered for your convenience in selecting poses for your album. All album prints are custom printed for optimal color and cropping.

Retainers & Payments – Retainers are calculated by adding 8.3% Washington sales tax to the coverage and dividing the resultant total by one half, this amount is due at the time you reserve a photographer for your wedding date. The balance is required a week before the wedding. All images created by Realife Photography will bear the studio's name and copyright symbol ©.

Please add Washington State Sales Tax to all prices

Realife Photography has been photographing weddings for over 38 years. LDS weddings are one of our specialties. Our studio has been photographing weddings at the Columbia River Temple since the first day sealings were done at the temple and has been actively photographing temple weddings ever since!

Our temple weddings offer a sensitivity to LDS values that few other studios understand. Our lead photographer, Rick Reil, a Professional Photographers of America Certified Professional Photographer, was asked by the temple construction committee to photograph the various stages of construction and to cover the dedication by President Hinckley.

All photography is done with professional quality digital cameras and lighting equipment. We work with a full set of "backup" equipment to insure against any malfunctions or problems ruining your wedding photographs. As a member of Professional Photographers of America and Professional Photographers of Washington we keep up on the latest equipment and techniques to assure our photography style remains fresh and unique.

As you select your wedding photographer remember that after the cake is eaten, the tuxes returned, the gifts opened and put away, and the flowers gone, the photographs are one of the few things that will vividly preserve the precious memories of your wedding day. Don't leave such an important part of your wedding to an amateur or inexperienced photographer. While we realize price is important, quality work is as much so. Don't select a photographer without first meeting them and seeing their work.

We are available on a first come/first serve basis. The number of weddings we do each year is limited to ensure a fresh look of the highest quality. We would like to meet you and personally discuss your wedding needs. Please call at your earliest convenience to discuss how we might make your wedding day even more special!
